

# CUSTOM FOOD GIFTS!

Creating customized gifts has been our specialty for over 35 years! Although our catalog and website contain hundreds of delicious gifts, there are times when a customized gift is required. We always welcome the opportunity to develop gifts, regardless of how creative the request!

The minimum quantity for customized gifts varies from one hundred to a few hundred depending upon the complexity of the request.

We can build gifts just the way you want them:

- We can include your promotional products (pens, mugs, etc.)
- We can use your favorite foods
- We can build gifts to meet your budget
